HOLOGRAPHIC SELF-ADHESIVE VINYL INSTRUCTION

Introduction

Holographic self-adhesive vinyl is a unique vinyl with an eye-catching rainbow effect that changes with light and perspective. It has a gloss finish with an iridescent shine. This vinyl is coated with a protective laminate that makes it durable and resistant to fading, scratching, tearing, and water. Perfect for car and window graphics, wood signs, ceramic, glassware, water bottles, crafts, and more.

Instructions

1. Create your design. (No need to mirror it.)
2. Cut the design.
3. Weed the design. (For small letters and patterns, please press the part you need in case of being lifted when weeding.)
4. Use transfer tape to apply the design. (Squeegee the tape onto the vinyl.)
5. Peel off the vinyl.
6. Apply the vinyl to a clean and smooth surface.
7. Squeegee the vinyl.
8. Remove the transfer tape.
9. Finish.

Quick Reference Chart

Cutting			
Cutter	Cricut	Cameo 3	Cameo 4
Setting	Blade: Standard Setting: Premium Vinyl -Holographic Pressure：Default	Vinyl Reflective (Blade: 1 Force: 10 Speed: 5 Passes: 2)	Vinyl Reflective (Blade: 3 Force: 10 Speed: 5 Passes: 2)
NOTE: 1.Please ensure the real vinyl is facing up when you cut the design. 2.Remove the clear protective film before cutting. 3.The cutting parameters may vary depending on the condition of the blade and the age of the machine. 4.Please confirm that the blade is sharp enough and there is no scrap on the blade. 5.Colors appear slightly different on computer monitors. (This chart refers to the product's most suitable parameters for some third-party machines.)			

Attention
